### **Company history and culture**

Baseline Solar Solutions is a leading renewable energy contractor in southwest and central Virginia. Our mission is to promote renewable energy adoption and to help our clients achieve their energy goals through rigorous design, quality installation, and outstanding customer service. Founded in 2008 in Blacksburg with two people and a truck, we now operate with 15 employees across southwest Virginia and have installed hundreds of renewable energy systems throughout the state. We are always looking for great talent and are excited to talk with you!

### **What sets Baseline Solar apart**

- We put our staff first – We believe our success comes from our staff, so we invest heavily in training, flexible schedules, and generous compensation. We care about our staff!
- Work doing something you love – Whether you are in the office or in the field, solar puts a smile on everyone's face and pushes our community towards a cleaner energy future.
- Team environment – Each member must be productive, and combined we form a winning team.
- Long term view – In business for 13 years, we have established ourselves in the community and plan to be around for decades to come. Come join our team!
